

SOLATUBE®

Tubular Daylighting

Brighten Your Home
with Natural Light

Available in 160DS and 290DS

1. Daylight Control System

Experience natural light of tubular daylighting systems, but want the ability to adjust the brightness?

Our new Daylight Control System includes a remote-controlled, solar-powered baffle that opens and closes at the touch of a button. Now you can adjust the light in your space from bright to dark, and everything in between.

2. Solar NightLight System

In spaces like hallways, foyers, and bathrooms, being able to light your way at night is ideal. With the Solatube systems, you get beautiful natural light during the day, while an integrated solar panel charges up a nightlight that provides a useful, soft glow at night.

3. Core Daylighting System

As leaders in the skylight industry, our Solatube Daylighting Systems are all about delivering maximum natural light into your home.

With the most advanced technologies available—from the sunlight-capturing dome to the reflective tube and stylish square or round decorative fixtures—you can feel confident that you have the premium daylighting system available.

Brighten Up Series™

Highest performance guaranteed*

Perfecting sunlight through invention

We didn't invent the sun. We just improved it. Solatube® Daylighting Systems are engineered to efficiently capture the sun's rays and deliver them into your home. From sunup to sundown you'll get brighter, more colourful rooms that cost nothing to light. Because installation can usually be done in about two hours with no structural changes, it's the fastest and simplest solution to a brighter, more beautiful home.

Transfer

Spectralight® Infinity™ tube made from the world's most reflective material, infused with patented Cool Tube technology.

- Transfers light further than any other skylight material for maximum daylight delivery
- Cool Tube technology ensures the highest energy efficiency by drawing away summer heat.

Daylight

Stylish Daylight Delivery Form and function combine for optimal daylight diffusion

- Solatube's large range of Decorative Fixtures brings the beauty and customisation to your interior
- The effective lenses offer choices to warm or soften the light
- A Light kit, Vent Kit or Daylight Dimmer adds functionality

Capture

Our combined technology delivers unrivalled year-round performance in light output and heat protection.

Patented Raybender® 3000 Technology - LightTracker™ Reflector

- This combination redirects low-angle daylight for unparalleled light capture – particularly during winter
- Raybender 3000 rejects over-powering summer midday heat

Brighten Up Accessories
