

Project
Echuca Twin Rivers School

Name of Project
Echuca Schools
Regeneration

Building Type
Commercial

66 Wilkinson Drive, Echuca 3564

Quality natural Light utilised in creative learning feature

Project Overview

Echuca Twin Rivers School provides Echuca's western growth corridor with a new, purpose-built, education facility replacing: Echuca South Primary School, Echuca West Primary School and Echuca Specialist School.

Objective

Throughout the school, interiors designed to elicit a soothing, sensory experience whereby the quality of light, temperature, fresh air and acoustics of each space can be easily adapted to individual needs

Products Used

31 – 750 DS SolaMaster open ceiling Skylights

8 – M74 DS SkyVault Skylights

Solution

- Quality natural Light utilised in creative learning feature
- Balancing over head natural light with window light reduces glare and eye strain
- Integrating natural light with LED improves student performance and colour rendition – LED/Natural Light

Testimonial

Customers own testimonial once the project was completed, in their own words.
