# Product Cleaning and Care

## Solatube® Daylighting Systems

### Dome

The dome on the Solatube Daylighting System is designed to be self-cleaning; however if installed in areas with a high level of debris build-up, the dome may need to be cleaned from time to time. To ensure that irreparable damage to the dome does not occur, the dome can be cleaned using a soft cloth with water and a non-abrasive mild soap or detergent followed by a thorough water rinse.

### Tubing

To clean the tubing, simply wipe with a soft cloth. Do not use any cleaning solution.

To reattach the diffuser or decorative fixture, simply align the tabs on the diffuser or decorative fixture to the ones on the ceiling ring and twist clockwise to secure.
